Description

This is our most popular single-story home, because it is so beautiful and spacious, the ceiling height is elevated in the living room and kitchen areas. There's an office, a formal dining room and an open concept layout in the main living area. The outdoor space connects to the breakfast area for easy outdoor living, with a very large screen porch for all to enjoy. Throughout the home are 3 guest bedrooms plus a spacious owners suite all on the main floor. This home is under construction and scheduled to be complete in October 2024. *Pictures shown for conceptual purposes - options and colors will be different*
