## Description

The Buffett floor plan presents a different angle on space, style, and functionality. When you enter the foyer and step into the main living area, you see the interesting layout in this open floor plan. The family room takes a slight turn to the dining area. The well-appointed kitchen gives you a view of both. The Buffett is designed with the 3 bedrooms upstairs, separating family time from private time. Your owner's suite spans the full width of the footprint, and includes an en suite bath and an oversized walk-in closet. The second-floor laundry center is also easily accessible to anyone who needs it.
