Designed for both comfort and functionality, the home features a spacious eat-in kitchen, a separate dining room, and a great room with a fireplace. The primary suite includes a walk-in closet, dual vanities, a soaking tub, and a separate shower. Bamboo flooring extends throughout the main living areas, adding both durability and style. A sunroom with decorative stamped concrete at the back of the home provides additional living space and a great place to relax. Outside, an extended patio, also with stamped concrete, offers even more room for outdoor entertaining. Both the sunroom flooring and the additional concrete adjacent to it feature stamped concrete for a stylish, finished look. This home has been carefully maintained and boasts several recent upgrades, including a brand-new roof installed in 2022, a completely replaced air conditioning and heating system in 2020, and the addition of a tankless water heater in 2021. Situated on a premium lot that backs up to a protected wooded area, the fenced backyard provides privacy and a peaceful retreat. In addition, the home's electrical panel is pre-wired for a generator.
