Description

This brick split-level home is nestled on a corner lot in the well-established Church Creek neighborhood. The HVAC, water heater and roof are all less than 5 years old and all windows were updated 8 years ago with the large bay window being replaced in 2022. The whole house has been updated from its original 1960's style, but still needs some minor upgrades and is looking for a buyer that is interested in making a well-built home their own. Upon entry, you are welcomed by smooth ceilings finished with crown molding, and wood floors throughout the house. The living room features a large bay window that brings in an abundance of natural light. The open kitchen is adorned with ample cabinet space and stainless steel appliances. Enjoy cool evenings in front of the cozy wood-burning fireplace in the family room. The spacious master bedroom is complete with multiple closets and an en-suite bathroom with a walk-in tile shower. The garage space has been converted into a bonus room ready for you to design it to your needs, whether it be a man cave, mother in law suite or extra rental income. Take a step out back and enjoy the outdoors from the privacy of your fully fenced backyard. The back deck provides the opportunity for al fresco dining or a spot to grill out. The spacious backyard leaves plenty of room for the family pet and children to run around in. This home is conveniently located a short drive to local shopping, dining and entertainment options for the entire family, including the Tanger Outlets and local area beaches. Don't wait!
