## Description

Incredible, deep renovation just completed, with everything done to the highest level of quality. No expense spared, nothing needs to be done for years, if not decades! Elegant, solid masonry construction for the main home and the guest house, all from the Greek Revival period of Charleston. Both main and separate one-bedroom guest house surround the professionally designed garden. Nothing was left untouched: systems, electrical, kitchen/baths, windows, doors, roof, piazzas, structure, even solar panels for additional electrical support. In the garden there is an all-new design, stone, planting, irrigation and draining, plus new gated parking, and a built-in car charger in the parking area. The main house features 3 generous bedrooms, 3.5 bathrooms, plus formal and second-floor library, which could be used as a 4th bedroom if needed in the main. The garden guest house to the rear of the property is equally charming, situated over two levels, all perfectly done in an English cottage style offering an additional bedroom and 1.5 bathrooms. In addition, near the guest house is generously enclosed storage for bicycles, scooters, or to be used as a workshop or studio. No conservation easements have been taken.
